

MA - Meeting Notes

- 7/29
 - Talking points
 - Review meeting prep info
 - Any additional info
 - Give Fevin access to github:
<https://github.com/EL132/Memory-Assistant/settings/access>
 - Please move the meeting prep doc to the Meeting Prep folder
 - General
 - Github research and implementation (and file structure)
 - Integrate data and code for LLM into Django framework
 - Setup frontend in React
 - Connect frontend to backend
 - Fevin: [Link to Doc](#)
 - Try creating a new component and try rendering it into index.js
 - Understand the structure for how to query something from frontend
 - Once i do that, how do i put that into the html itself
 - Render variables and understand how to query a backend upon submission of a button. Onclick function?
 - How to make an axios call to backend using react. Axios allows you to get in contact with an api
 - Elias: [Doc](#)
 -
